More details about the workshops are available through the contact person or me. All the workshops are about "The Art of Balance"; some of them are longer and some shorter. If you need more details and are interested to come, please notify the contact person or me as soon as possible to secure your place.

"Wolfgang's workshop was truly a unique experience. I never imagined walking on a tightrope would be such an exhilarating and effective way to explore the Alexander Technique. With Wolfgang's guidance, I overcame my fear of falling, and discovered a new sense of balance and freedom. Wolfgang is an innovative teacher who creates both a thrilling and safe environment for deepening the practice of the Alexander Technique."

Jessica Wolf, Alexander teacher and associate professor at Yale School of Drama

"With his well-developed sense of play, Wolfgang creates an ideal environment for learning. He weaves the Alexander Technique Principles into activities so skillfully that participants at every level are thoroughly engaged." Babette Markus, Adjunct Professor of Alexander Technique in the Theatre Schools at both University of California and California Institute of the Arts as well as founding member of the Alexander Training Institute, Los Angeles (ATI-LA)

"Wolfgang Weiser is an exceptional teacher by any standard His instructions are very clear and he always makes learning fun. I cannot praise him too highly. "
Richard Brennan, Director of the Alexander Technique Ireland
